

SECURITY PROGRAM ASSESSMENT

Build confidence in your security program maturity.

Reveald offers a consultative security program readiness assessment which provides a comprehensive understanding of security maturity and preparedness for complex governance and compliance requirements. Reveald will perform an assessment, measuring how a security program compares to the security controls defined across relevant industry standards and frameworks.

BUILDING A BETTER AND MORE RESILIENT SECURITY POSTURE

Reveald offers a consultative Security Program Readiness Assessment which provides a comprehensive understanding of security maturity and preparedness to meet or exceed complex governance and compliance requirements.

Reveald will perform an assessment, measuring how a security program compares to the security controls defined across relevant industry standards and frameworks.

The year 2021 saw 50% more cyber-attacks per week on corporate networks compared to 2020.

(Source: Forbes, "Cybersecurity in 2022 – A Fresh Look at Some Very Alarming Stats" January 21, 2022)

Today's businesses are experiencing an increase in stress on their organization for dealing with new and emerging cyber-security threats.

KEY BENEFITS

Build an effective risk-reducing security program designed to meet the growth needs of an organization.

Increase confidence in continuous operation of a security program, and the ability to overcome and resolve cyber threats.

Protect an organization's ability to support their mission, objectives and actions that align to business requirements, while supporting a strong security posture.

See Everything. Risk Nothing.

THE SECURITY PROGRAM ASSESSMENT PROCESS

Protect your business from new and emerging threats with a Security Program Assessment that delivers a detailed analysis of the current state; including core strengths and weaknesses, and actionable recommendations that will bring organization-wide improvements to cybersecurity programs. A tailored strategic remediation roadmap will increase trust and confidence in cybersecurity operations and responses.

Reveald's comprehensive methodology focuses on delivering recommended success metrics that will further enable business operations in both the short and long term. Reveald will benchmark current capabilities and assess cybersecurity maturity, identifying areas for improvement that are in line with organizational goals to deliver business outcomes.

Having confidence that a business environment is protected from cyber threats and malicious attacks are a top priority for all organizations. The best place to start building a solid strategic offense to defense foundation is with a Security Program Assessment. This assessment allows you to build confidence in the maturity of IT landscape, policies, and procedures that align to business objectives while ensuring a strong security posture for an organization.

ABOUT REVEALD

Reveald is making Exposure Management a reality to solve the biggest challenges in cybersecurity with a trailblazing 'offense to defense' approach that gives the advantage back to the business. It is the only solution that combines risk hunting, full defensive response, and threat and exposure remediation services that deliver business-driven outcomes. Operationalizing cutting-edge technology for exposure management, Reveald uncovers every conceivable attack path and intelligently prioritizes them by business criticality and risk. Our Fusion Center team of elite security experts then systemically neutralizes those attack paths to make critical IT assets increasingly impervious to exploitation. The addition of ongoing monitoring and advisory services empowers users to adopt a formidable defensive posture while taking pressure off their in-house security resources. Above all, Reveald turns cyber risk into something measurable and manageable from the SOC to the C-Suite.
